

# **NITRA MAX 30-0-0**

Foliar Liquid Nutritional

## INFORMATION

Sun Glo **Nitra Max 30-0-0** is a highly concentrated liquid controlled release nitrogen source that can be foliar or soil applied. It is engineered with unique release characteristics to obtain a constant growth pattern of the plants. Since **Nitra Max 30-0-0** has a very low salt index (1-2) its use as a foliar spray to prevent and correct deficiencies on fruit and most other crops is very safe with very low burn potential. It is also very effective when applied directly to the soil or through pressurized irrigation systems. Check the compatibilities of untried chemical mixes.

## DIRECTION FOR USE

Sun Glo **Nitra Max 30-0-0** should be applied as needed starting with the first spray at 1 to 2 gallons per application in 100 gallons of water. Aerial Application: 1 to 2 gallons per acre in 5 to 15 gallons of water. Also apply through drip or micro-sprinkler irrigation systems as needed to supplement crop nitrogen needs

## CROP RECOMMENDATIONS

Fruit & Nuts: Citrus, Avocados, Mangos, Peaches, and Pecans. For mature trees: Apply 1 to 2 gallons per acre per application. Repeat application as needed to supplement a balanced soil fertilization program. Young Trees: Apply 1 to 2 gallons per 100 gallons water and wet to run off. Applications every 4 to 6 weeks throughout growing season have given excellent results.

## MINIMUM GUARANTEED ANALYSIS

30-0-0

Total Nitrogen	30.0%
Water Soluble Nitrogen	21.00%
Urea Nitrogen	9.00%

21% Slower availability nitrogen

Derived from: Urea-Formaldehyde

SALT INDEX 1-2

## CAUTION

KEEP OUT OF REACH  
OF CHILDREN

MANUFACTURED BY:

200 S.R. 70 WEST

WEIGHT PER GALLON 10.35

FLLN - 538

## CAUTIONS

Avoid getting in eyes, mucous membranes or on skin. Use with adequate ventilation. Keep container capped when not in use. Keep away from children. Do not contaminate water supplies.

## PRECAUTIONS

- (1) Do not spray if crop is growing under drought or heat stress.
- (2) When compatibilities are unknown or questionable contact your supplier or use a jar compatibility test.
- (3) The final tank mix should not contain less than an equal amount of water and Nitra Max 30-0-0 to insure proper coverage.

## ANTIDOTES

Skin or eye contact: Flush thoroughly with water and see a physician. Internal: Induce vomiting if conscious and get medical attention at once.

## CONDITIONS OF SALE

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with the directions under normal conditions of use. Crop injury ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials or the manner of use or application, all of which are beyond the control of Seller. In no case shall Seller be liable for consequential, special or indirect damages resulting from the use or handling of this product. Seller makes no warranties of merchantability or fitness for a particular purpose nor any other express or implied warranty except as stated above
