

*Especially formulated for Foliar Application*

## INFORMATION

**SunGlo 3-0-8** is a liquid foliar formulation designed for maximum uptake of nutrients including Nitrogen Magnesium and Boron. It is designed to support vigorous root growth and bloom development. If added to the spray tank first it will aid in lowering water pH. Check the compatibilities of untried chemical mixes.

## DIRECTIONS FOR USE

**SunGlo 3-0-8** should be applied to citrus trees in a pre bloom stage to enhance bloom and maximize yield potential or at any time during the production cycle as required.

## CROP RECOMMENDATIONS

Citrus: Apply 8-12 gallons per acre as part of a pre-bloom spray program to enhance the viability of blooms.

If appropriate combine with potassium phosphite products such as **Crop-Phite** to complement the impact of both products.

For application with fungicides, always follow pesticide label directions. Perform jar test for compatibility with pesticides. Not to be used with copper materials.
