

Foliar Liquid Nutritional

INFORMATION

Sun Glo 15-5-5 Plus is a liquid foliar formulation designed for maximum uptake of readily available critical macronutrients. Since Sun Glo 15-5-5 Plus is easily assimilated by both leaves and woody tissue, it is very effective as a foliar spray to prevent and correct deficiencies on fruit, woody ornamental and most other crops. To ensure compatibilities a jar test is recommended before mixing with other products other than water in the tank. Always fill tank with water first, then begin adding Sun Glo 15-5-5 Plus while tank is circulating.

DIRECTION FOR USE

Sun Glo 15-5-5 Plus should be applied as needed starting with the first spray at 7 to 10 gallons per acre for fruit trees (1-2 gallons per acre for Row crops) with sufficient water to completely cover leaves. Moisten both sides of the leaves only to the point of run-off. This is a very stable mixture that needs very little or no agitation.

CROP RECOMMENDATIONS

Fruit Trees: Apply 7 to 10 gallons per acre per application at 5-10% bloom. Repeat as needed in mid season or three to four weeks before fruit harvest or as needed as a supplemental source of nutrients.

Row Crops: Apply 1-2 gallons per acre per application in sufficient water and wet to run off at critical stages of growth.

Woody ornamentals: 3-5 gallons per acre is the recommended rate. Repeat every 3-4 weeks as needed.

Soluble Potassium as K ₂ O	5.0%

Derived from Urea Monopotassium Phosphate, Dipotassium Phosphate, Phosphorous Acid and Potassium Hydroxide

CAUTION

KEEP OUT OF REACH OF CHILDREN

MANUFACTURED BY:

200 S.R. 70 WEST
LAKE PLACID, FL 33852

CONTAINS 0.2 LBS PO₃ PER GALLON

WEIGHT PER GALLON 10.16 LBS.

FLLN: 538

CAUTIONS

Avoid getting in eyes, mucous membranes or on skin Use with adequate ventilation. Keep container capped when not in use. Keep away from children. Do not contaminate

water supplies.

PRECAUTIONS

(1) Do not use with liquid foliar or ground fertilizer containing minor elements.

(2) When compatibilities are unknown or questionable contact your supplier or use a jar compatibility test.

ANTIDOTES

Skin or eye contact: Flush thoroughly with water and see a physician. Internal: Harmful if swallowed, induce vomiting if conscious and get medical attention at once,.

CONDITIONS OF SALE

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with the directions under normal conditions of use. Crop injury ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials or the manner of use or application, all of which are beyond the control of Seller. In no case shall seller be liable for consequential, special or indirect damages resulting from the use or handling of this product. Seller makes no warranties of merchantability or fitness for a particular purpose or any other express or implied warranty except as stated above.
