

CROP-PHITE 0-22-18

Foliar Liquid Nutritional
FOLIAR LIQUID NUTRITIONAL

INFORMATION

SunGlo Crop-Phite 0-22-18 is a liquid foliar nutritional formulation designed for optimum phosphorous nutrition. Since Crop Phite 0-22-18 is easily assimilated by leaves and taken into the plant tissue, it is very effective as a foliar spray to prevent and correct deficiencies on fruit and most other crops in conjunction with a balanced fertilization program. The addition of a non-ionic surfactant will aid in uptake.

DIRECTION FOR USE

SunGlo Crop-Phite should be sprayed as a fine mist onto the plants foliage moistening it to the point of run-off. Check the compatibilities of untried chemical mixes by conducting a jar test prior to preparing your final spray mix.

CROP RECOMMENDATIONS

Fruit Crops: SunGlo Crop-Phite 0-22-18 should be applied as needed starting with the first spray at 2-3 quarts per application in 50-100 gallons of water. For aerial application use 2-3 quarts per acre in 5 to 15 gallons of water. Apply at bloom and repeat during fruit formation.

MINIMUM GUARANTEED ANALYSIS

	0-22-18	
Total Nitrogen		0.0%
Available Phosphate as P ₂ O ₅		22.00%
Soluble Potassium as K ₂ O		18.00%
Derived from Phosphorous Acid and Potassium Hydroxide.		

CAUTION

KEEP OUT OF REACH OF
CHILDREN

MANUFACTURED BY:

200 S.R. 70 WEST

LAKE PLACID, FL 33852

FLLN: 538

WEIGHT PER GALLON 11.04 LBS.

CAUTIONS

Avoid getting in eyes, mucous membranes or on skin. Use with adequate ventilation. Keep container capped when not in use. Keep away from children. Do not contaminate water supplies.

PRECAUTIONS

- (1) Do not use with liquid foliar or ground fertilizer containing minor elements.
- (2) When compatibilities are unknown or questionable contact your supplier or use a jar compatibility test.

ANTIDOTES

Skin or eye contact: Flush thoroughly with water and see a physician. Internal: Harmful if swallowed, induce vomiting if conscious and get medical attention at once.

CONDITIONS OF SALE

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with the directions under normal conditions of use. Crop injury ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials or the manner of use or application, all of which are beyond the control of Seller. In no case shall seller be liable for consequential, special or indirect damages resulting from the use or handling of this product. Seller makes no warranties of merchantability or fitness for a particular purpose nor any other express or implied warranty except as stated above.
