

MAGIC 7

FOLIAR LIQUID NUTRITIONAL

INFORMATION

SunGlo Magic 7 (7-0-0-6Mg) is a liquid foliar nutritional formulation designed for maximum uptake of Magnesium. Since Magic 7 is easily assimilated by both leaves and woody tissue, it is very effective as a foliar spray to prevent and correct deficiencies on fruit and most other crops in conjunction with a balanced fertilization program. The addition of a non-ionic surfactant will aid in uptake. Check the compatibilities of untried chemical mixes.

DIRECTION FOR USE

SunGlo Magic 7 should be applied as needed starting with the first spray at 1 to 4 quarts per application in 100 gallons of water. Aerial Application: 1 to 4 quarter per acre in 5 to 15 gallons of water.

CROP RECOMMENDATIONS

Fruits & Nuts: avocados, mangos, Peaches, Pecans.
Mature Trees: Apply 1 to 4 quarts per acre per application. Repeat application if desired at 1 to 2 quarts per acre in summer and fall applications. **Young Trees:** Apply 2 quarts per 100 gallons water and wet to run off. Applications every 6 to 8 weeks throughout growing season have given excellent results. **Vegetable Crops:** 1 to 4 pints per acre per application. **Field Crops:** Corn, peanuts, Soybeans, Small Grains; use 2 to 3 pints per acre per application. At least 3 applications are suggested with additional applications being necessary for more severe deficiencies. More frequent applications at lower rates will give better results.

MINIMUM GUARANTEED ANALYSIS

7-0-0-6 Mg

Total Nitrogen	7.00%
Available Phosphate as P ₂ O ₅	0.00%
Soluble Potassium as K ₂ O	0.00%
Soluble Magnesium (Mg)	6.00 %
Derived from: Magnesium Nitrate.	

CAUTION

KEEP OUT OF REACH OF CHILDREN

DISTRIBUTED BY:

200 S.R. 70 West

Lake Placid, FL 33852

WEIGHT PER GALLON 11.25 LBS.
FLLN: 538

CAUTIONS

Avoid getting in eyes, mucous membranes or on skin. Use with adequate ventilation. Keep container capped when not in use. Keep away from children. Do not contaminate water supplies.

PRECAUTIONS

- (1) Do not use with liquid foliar or ground fertilizer containing phosphates.
- (2) When compatibilities are unknown or questionable contact your supplier or use a jar compatibility test.

ANTIDOTES

Skin or eye contact: Flush thoroughly with water and see a physician. Internal: Harmful if swallowed, induce vomiting if conscious and get medical attention at once.

CONDITIONS OF SALE

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with the directions under normal conditions of use. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials or the manner of use or application, all of which are beyond the control of Seller. In no case shall seller be liable for consequential, special or indirect damages resulting from the use or handling of this product. Seller makes no warranties of merchantability or fitness for a particular purpose nor any other express or implied warranty except as stated above.
