

Citrus Power

Citrus Power

With

◆ Plant Hormones ◆ Plant Vitamins ◆

Chelated Micronutrients with amino acids, plant hormones and plant vitamins for prevention and correction of micronutrient deficiencies

Guaranteed Analysis

Magnesium (Mg).....	1.00%
Water Soluble Magnesium (Mg).....	1.00%
Manganese (Mn).....	1.25%
Water Soluble Manganese (Mn).....	1.25%
Zinc (Zn).....	1.85%
Water Soluble Zinc (Zn).....	1.85%
Iron (Fe).....	1.20%
Water Soluble Iron (Fe).....	1.20%
Boron (B).....	0.25%

Derived from:

Magnesium, manganese, iron, copper, and zinc glucoheptonates, sodium molybdate and boron.

Weight Per Gallon: 11.3 pounds

PACKAGE AVAILABILITY

Citrus Power is available in:

- 2 x 2.5 Gallon Case
- 30- Gallon Drum
- 275-Gallon Mini-Bulk

CONDITIONS OF SALE

1. Douglass Fertilizer & Chemical, Inc. (DFC) warrants that this product consists of the ingredients specified and is reasonably fit for the purpose stated on this label when used in accordance with the directions under normal conditions of use. No one other than the officer of DFC is authorized (and such authorization must be in writing) to make any other warranty, guarantee or direction concerning this product.

2. Because the time, place, rate of application, weather conditions and normal or abnormal conditions of use or storage are beyond DFC's control, DFC's liability is limited to replacement of product or refund of purchase price. In no event shall DFC be liable for indirect or consequential damages.

GENERAL INFORMATION

Citrus Power is a combination of a balanced formula of chelated micronutrients and other compounds which contain hormone precursors, natural plant amino acids, plant vitamins and an anti-stress substances. This combination is very helpful in correcting micronutrients deficiencies, in stimulating plant growth especially in stressful conditions and in producing higher marketable yields on most citrus crops.

APPLICATION GUIDELINES

Foliar Application: Use 2-4 quarts **Citrus Power** per acre per application. Three applications of **Citrus Power** are recommended. Apply first at pre-bloom to 1/2 petal fall. Apply second in the month of June. Third application should be applied in August.

Arial Application: Do not exceed 1 quart of **Citrus Power** for 10 gallons of water. Multiple applications are recommended for best results.

Optimum rate of application will vary depending on soil pH and organic matter content. For best results, consult soil test or plant analysis recommendations.

Shake well before using
