

Vegetable Power

Vegetable Power

With

◆ Plant Hormones ◆ Plant Vitamins ◆

Chelated Micronutrients with **amino acids**, plant hormones and plant vitamins for prevention and correction of micronutrient deficiencies

Guaranteed Analysis

Magnesium (Mg).....	2.00%
Water Soluble Magnesium (Mg)....	2.00%
Boron (B).....	1.00%
Copper (Cu).....	0.25%
Iron (Fe).....	1.75%
Manganese (Mn).....	0.50%
Water Soluble Manganese (Mn)....	0.50%
Zinc (Zn).....	0.50%

Derived from:

Magnesium, manganese, iron, copper, and zinc glucoheptonates, sodium molybdate and boron.

Weight Per Gallon: 11.2 pounds

PACKAGE AVAILABILITY

Vegetable Power is available in:

- 2 x 2.5 Gallon Case
- 30- Gallon Drum
- 275-Gallon Mini-Bulk

CONDITIONS OF SALE

1. Douglass Fertilizer & Chemical, Inc. (DFC) warrants that this product consists of the ingredients specified and is reasonably fit for the purpose stated on this label when used in accordance with the directions under normal conditions of use. No one other than the officer of DFC is authorized (and such authorization must be in writing) to make any other warranty, guarantee or direction concerning this product.

2. Because the time, place, rate of application, weather conditions and normal or abnormal conditions of use or storage are beyond DFC's control, DFC's liability is limited to replacement of product or refund of purchase price. In no event shall DFC be liable for indirect or consequential damages.

GENERAL INFORMATION

Vegetable Power is a combination of a balanced formula of chelated micronutrients and other compounds which contain hormone precursors, natural plant amino acids, plant vitamins and an anti-stress substances. This combination is very helpful in correcting micronutrients deficiencies, in stimulating plant growth especially in stressful conditions and in producing higher marketable yields on most vegetable crops.

For use on all vegetable crops.

APPLICATION GUIDELINES

Foliar Application: Use 1-3 quarts of **Vegetable Power** per 100 gallons of water per acre as a thorough coverage spray. Apply **Vegetable Power** at 14-day intervals. Repeat application 3 times. Application 48 hours after transplanting and repeated at 14-day intervals for several applications has a tendency to increase yield and quality of crop.

Arial Application: Use 1 quart of **Vegetable Power** with 10 gallons of water. Repeat applications at 14-day intervals.

Shake well before using
